

# YOUR CATARACT SURGERY OPTIONS

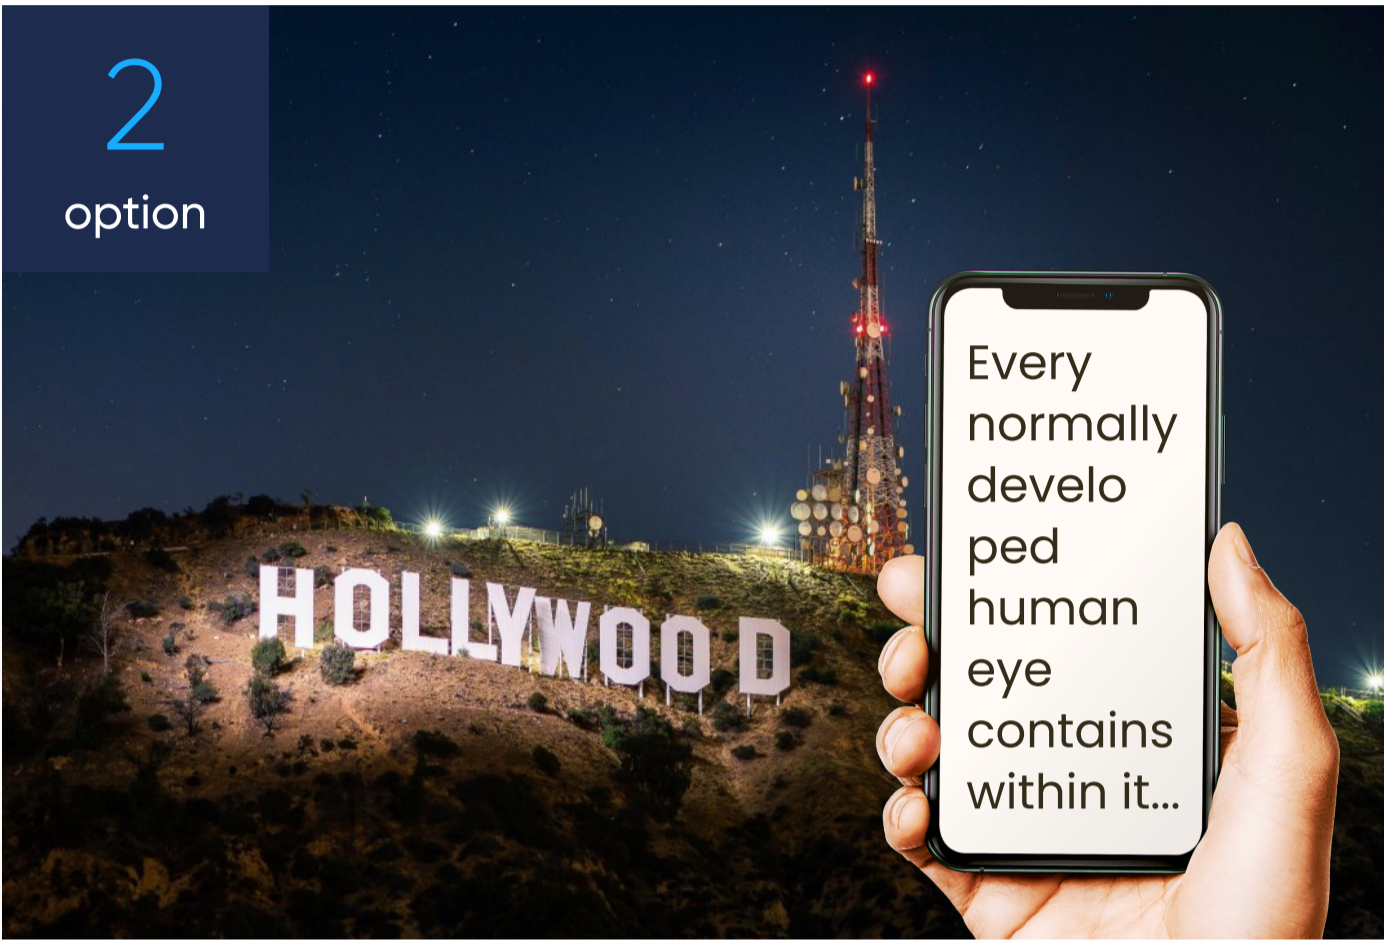

## Precision Vision

e

- ✓ Laser-Assisted Cataract Surgery

**\$2800/per eye\***

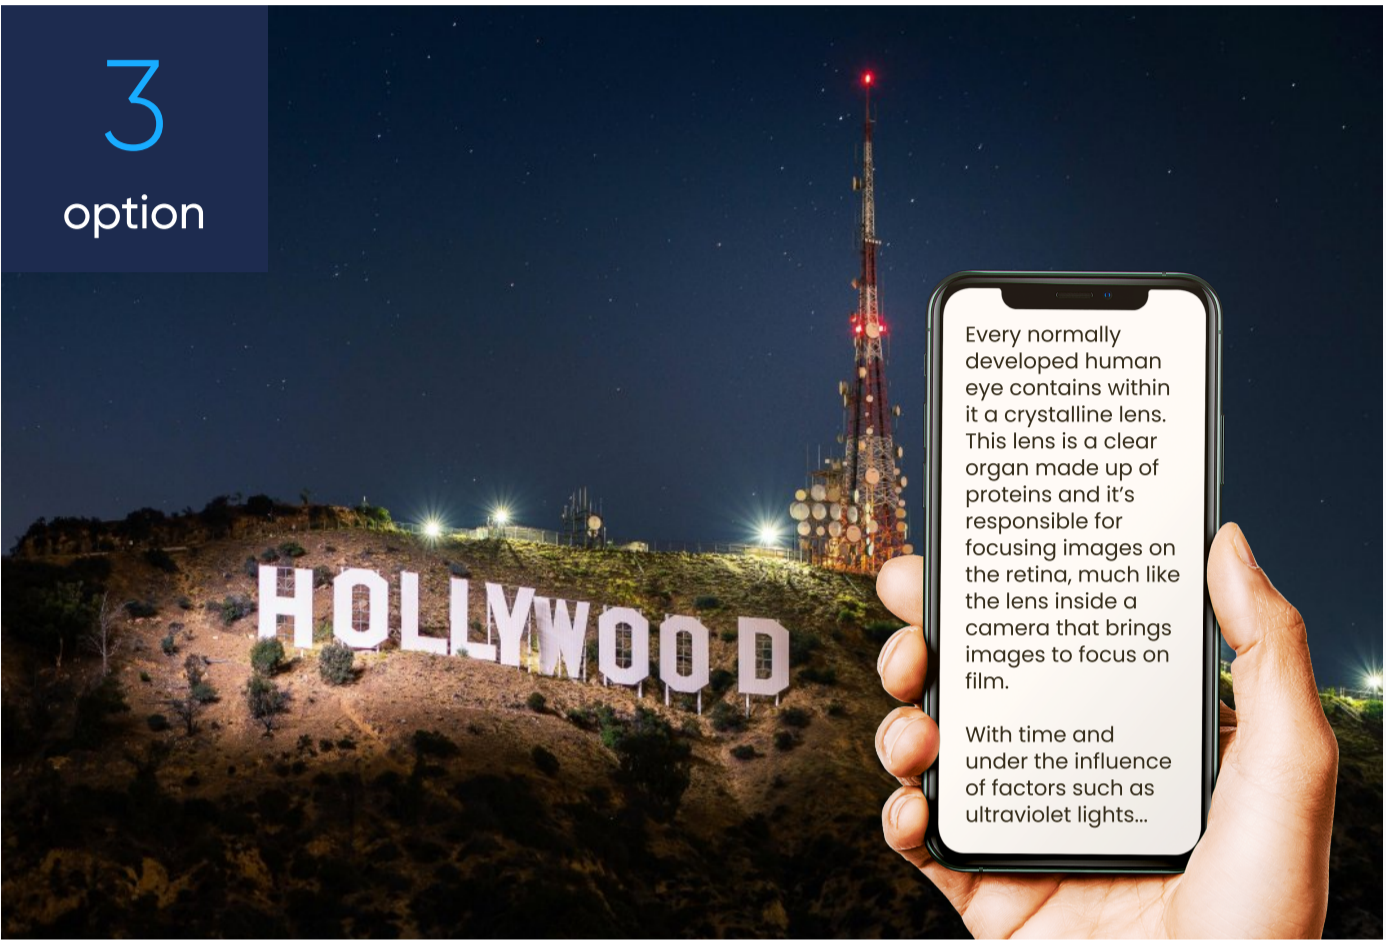

## Enhanced MonoVision

With the [Enhanced MonoVision Package](#), one of your eyes is corrected for distance vision, and the other eye is corrected for near vision. Mild astigmatism is corrected in both eyes. You may still require glasses for night driving and activities needing better depth perception or fine detail

- ✓ Laser-Assisted Cataract Surgery
- ✓ Eyhance Extended Focus IOL

**\$4500/per eye\***

With Toric IOL + **\$900**

## Visual Freedom

The [Visual Freedom Package](#) provides the most amount of independence from glasses. We offer a variety of lenses at this level. Dr. Benjamin will recommend the best lens for each individual.

- ✓ Multifocal, Accommodating or Symphony Extended Range IOLS
- ✓ Laser-Assisted Cataract Surgery
- ✓ ORA Intraoperative Aberrometry

**\$7200/per eye\***

With Toric IOL + **\$900**

*\*Results vary. No lens offers perfect vision at all distances. Lens is not paid for by insurance, this is in addition to your deductibles and coinsurance that may not be covered.*
